## **VAIŚHVIK MAHAŚHAKTĪŚVAR YOGIRAJ SHIN SHIVA SVAYAMBHU BHAIRAVANATH**

SHIN is the initiator of Integral Learning and a true friend of people. With great kindness, immeasurable patience, loving humor and great joy, SHIN teaches worldwide.

The basic elements of his teaching range from working with the senses, to mudra, mantra, meditation, secrets of breath, cosmic laws, song, dance, word, language, up to the introduction and immersion into the holy rites and initiatic encounter with oneself and the OTHER and much more. The abundance of his living teaching recognizes all areas of man and SHIN enables us with a path behind all paths an individual development, in which all talents, gifts, abilities and forces slumbering in us can be awakened and lifted, up to the highest goal, the "inner nuclear fusion".

This rapid, but by no means superficial new way of learning involves everything according to the universal principle and is related to everything and lets us perceive and recognize the world in a completely new and fuller way. The Dynamic-Harmonic Work with the Kundalini awakens a new person who can realise the new epoch!

In India, a place of power is currently being constructed that holds unimagined creative laws and secrets. The building is the construction of a light vision by SHIN, which is now being implemented in an excellent way by the architect and constructor, as well as by artists from all over the world. A Centre for free Peace is developing, which will send out impulses with great strength for peace and freedom in all directions, to all peoples and religions and can further people in their development.

Once you have visited this temple, you will never forget it again.
